

Roslin Primary School

'Exciting learning within our friendly and active community of Roslin and Bilston'

Literacy & Language

Reading groups this term will begin to develop into Literature Circles, where the children will be able to take on group roles and responsibility for their own learning, whilst building comprehension and discussion skills. Writing this term will mainly focus on personal and report writing, which will tie in fantastically well with our topic work.

Numeracy & Maths

We will be continuing to revise and develop our addition, subtraction, multiplication and division skills this term. Times Table Tuesday has been a popular success so we will be continuing with this as well- keep practising those tables! In maths we will be learning about the laws of probability and chance, and alongside our topic we will be using data analysis and information handling skills.

Expressive Arts

Primary 4 will continue to work on and develop their understanding in Music with our specialist Mrs Stentiford. Art will feature heavily through our Endangered Animals topic this term. Inspired by Health Week, the class will continue to develop their dance, motivation and well being skills.

Dear Parents/Guardians,

Welcome to Primary 4's final term newsletter!

I can't quite believe we are here already, what a busy year we have had! This will be a very busy and exciting term as we consolidate our learning and get prepared for the transition into Primary 5! It is so important that everyone remains focused on learning and remembers that expectations of them remain high- let's keep up the great work we have worked hard on over previous terms!

Miss Menzies ☺

R.M.E

This term Primary 4 will be looking the key beliefs, practices and traditions of Hinduism. We will be able to use our previous knowledge of other religions to compare and contrast beliefs of people throughout the world.

Health & Wellbeing

Across the school we enjoyed lots of different activities as part of Health Week. We also revised our knowledge of Emergency Life Support training, which we will continue to develop this term. Our PE days this term will be a Wednesday and Thursday, and we will be developing problem solving and leadership skills, as well as stamina and speed in preparation for Sports Day!

Learning Across The Curriculum

Our topic this term is going to be Endangered Animals. It was launched this week with a fantastic and very worthwhile trip to Edinburgh Zoo. The class is looking forward to learning about different endangered animals and the conservation projects and actions put in place to project them.

A wee note....

As the weather (hopefully!) improves over the next few weeks, it would be very helpful for your child to bring a bottle of fresh water (not juice please) to drink throughout the day - so important to keep our brains hydrated and ready to learn! Thank you ☺
