

# Roslin Primary School

'Exciting learning within our friendly and active community of Roslin and Bilston'

## Literacy & Language

Primary 5 will be reading "Rooftoppers" as a novel study this term and will be undertaking a range of literacy tasks based on this text. For writing we will be mostly focusing on personal pieces and report writing. Being able to ask and answer questions when listening to a variety of sources is also something we will be working on in a listening and talking context.

## Numeracy & Maths

Primary 5 have kicked off our numeracy this term by learning how to identify, order and add and subtract integers. We will also be looking at the link between the multiplication and fractions, decimals, and percentages. Keep practising those times tables please! In Maths, we will be looking at chance and uncertainty, as well as using real contexts to analyse data.

## Expressive Arts/Technologies

Primary 5 are learning a range of skills in art this term, where we will use a variety of techniques and media, drawing inspiration from our novel study and topic. Drama lessons will be linked with our novel study, where the children will be encouraged to explore imaginary situations from a character's point of view.

Dear Parents/Guardians,

Welcome to Primary 5's summer term newsletter.

What a busy time we had last term! I would like to thank everyone who supported our musical showcase. The children performed superbly and did themselves proud, showing off everything they had learned and demonstrated confidence and dedication in a lot of different disciplines. We definitely have some future showmen and women in our midst!

Miss Pow

## R.M.E

This term, we are busy learning about Islam. We have already revised a Muslim's basic beliefs, and we are now moving on to exploring the Prophet Muhammad and other significant Muslim figures. P5 will also be learning about the laws surrounding food.

## Health & Wellbeing

Our class took part in many physical activities as part of the school's annual Health Week. We also spent some time revising our Emergency Life Support training and we will continue to explore the topic of personal safety. We are keeping our fingers crossed for fine weather to get outside and practise our athletic skills for our school sports day in June!

## Topic

Our topic this term is going to have a Science theme, titled "Living Things". This is a great term for getting out and about to investigate local wildlife, and our impending Zoo visit has planned workshop that is designed to support this area of learning.

### **A wee note...**

As the weather (hopefully!) improves over the next few weeks, it would be very helpful for your child to bring a bottle of fresh water (not juice please) to drink throughout the day - so important to keep our brains hydrated and ready to learn! Thank you ☺
