

HWB

We will try to use the outdoors as often as possible for gym so please ensure that on Mondays children have outdoor, running shoes.

Ms Whyte, who already covers other classes in school, is looking forward to teaching P2 on Wednesday afternoons and will be focusing on Keeping Safe. This is to allow me to teach Bikeability to P6.

Please make sure your child has fresh water at school each day as it can get very hot!

Cross-curricular Learning

In RME we will finish learning about Ramadan and Eid and begin to look at stories in Hinduism.

We will be learning about Houses and Homes through role play, investigation and construction activities. Our role play area is now a cottage and we have new dressing up costumes and resources, kindly made by Jean, one of our volunteers. The children find this area very exciting.

It would be helpful if your child had a small bottle of sunscreen in their tray or school bag so we can use outdoors as much as possible.

Numeracy and Maths

In **numeracy** we will continue to look at number structures, the processes of multiplication and division and furthering our skills of addition and subtraction. Please keep practising number bonds at home on a regular basis.

In **maths** we will be working with non-standard units and begin to use standard units of measure through Maths Activity Sessions.

Homework will be based around real-life maths and the children will chose the level of homework they wish to try.

Literacy

We will continue with our ORT books and will enjoy reading a new set of non-fiction ORT books before the end of term. Children will be asked to share information about their own house as part of our work on listening and talking. Our writing will focus on rewriting fairy tales, creating wanted posters for our characters, writing instructions and creating our own stories. It would be helpful if your child could share any fairy tale or houses and homes books they have at home.

It has been lovely working with your child this year so far and I'd like to take this opportunity to thank you for your ongoing support. Alison Herd
