

ROSLIN PRIMARY SCHOOL

LEARNING AND GROWING

to Achieve Success

Primary 2 Term 3 Newsletter

Literacy

This term we will be focussing on reading comprehension skills, discussing the main ideas of texts and answering different types of questions about what we read. In writing we will return to imaginative writing, creating stories and poems. The children continue to do free writing in their personal journal, encouraging them to get lots of practice! We are also working on group discussion this term.

Numeracy and Maths

This term we are learning about fractions. This will include applying what we learnt last term about multiplication and division to this context. You can support this term's work at home by; practising counting in 5s, 3s and 4s, talking about when you need to multiply or divide in shops and looking at fractions in everyday objects like food. We continue to work with P6 on Thursdays to reinforce and apply the skills we learn in class.

Social Studies

Last term we really enjoyed finding out about Roslin's history.

This term we are learning about farming and how the food we eat ends up on our plates. We will make links to sustainability and explore which foods come from Britain and which from overseas. We will also develop basic data handling skills, using graphs and charts.

Dear Parents/Carers,

Welcome to P2's final term newsletter. How the year has flown!

All year in P2 we have been developing our understanding of what makes a good learner.

This term, we are bringing together this learning to trial 'flexible seating'. This means the children will choose where and how they wish to sit while they learn. It is hoped that this will help the children develop independence as they take more responsibility for their learning.

K. Mathers

Health and Well-Being

Our PE days are Tuesdays and Fridays. This term we will be focussing on fitness and athletics. We will also be learning about cultural diversity and equality, a focus across the school. We are continuing to develop strategies for good mental health through the Relax Kids approach. We are particularly focussing on concentration, calm and focus.

Science

This term we will be focussing on forces in science. We will look at how toys and other everyday objects use push and pull forces and apply what we learn to some practical tasks.

Art

This term we will be focussing on using different techniques to add texture to our art. The children will have the opportunity to explore different materials and make choices about which ones they like best.

Homework and Organisation

Please check that your child has a full kit and pair of indoor shoes, which should be kept in school every day. Homework continues to go out on Mondays and is due on Fridays. Reading continues to be detailed in your child's reading record. Many thanks for the fantastic support our families have given to reading this year- it makes a huge difference!
