Primary 5 Term 3 Newsletter

Dear Parent/Carer,

We can't quite believe we are in the final term of P5 but are looking forward to another busy and exciting time in Primary 5. It was lovely to see most of you at parent consultations and your support this session has been very much appreciated.

Mrs Berry and Mrs Finlayson

MATHS

Our number work this term will focus on multiplication, division, number properties (including multiples and factors) and fractions. Continuing to practice times tables at home is having a big impact on learners.

In maths we will be looking at time, angles, symmetry and patterns and relationships.

HOMEWORK

Homework continues to be due every Friday. We will continue with weekly number homework and a literacy task that may focus on editing, grammar or spelling.

As always, if there are any issues please come and see us.

LITERACY

Primary 5 will take part in a novel study this term, developing their skills further in character description, main plot points and providing evidence to justify answers effectively. Our writing will be closely linked to the novel study, using imaginative and personal writing to improve our skills.

To further develop our listening and talking, learners will be working in pairs to put together a personal talk to present to the class.

VISITS/TRIPS

Skiing has been a huge success for our class this session and it has been great watching the children progress each week. Thank you to our parent helpers who came along each week. We look forward to visiting the newly opened Easter Bush Education Outreach Centre to take part in a science workshop.

ROUTINES

Just a reminder that PE is on Mondays and Thursdays and a full kit is required for those days.

It is still a good idea to have an indoor pair of shoes to change into as it helps protect our new carpets and flooring 😊
