

Roslin Primary School

'Exciting learning within our friendly and active community of Roslin and Bilston'

Literacy & Language

The main reading skill we will focus on this term is summarising, as well as consolidating our work on prediction and inference.

P6B will be looking at the personal element of diary writing, both from a fictional character's point of view as well as their own.

Numeracy & Maths

We have been working with decimals so far this term, which will culminate in being able to compare, order and make equivalences between fractions and percentages.

We are also working hard on our knowledge and understanding of the number system through a variety of games and quizzes.

Expressive Arts/ Technologies

P6B are enjoying exploring the design element of the expressive arts and are producing truly impressive work in all areas.

The children are using ICT to research different areas of our topic and they plan to use different programs to help present their findings.

Dear Parents/Guardians,

Welcome to Primary 6B's winter term newsletter.

I'm proud to say that so far, the children have worked incredibly hard. They take their role as "senior pupils" in the school very seriously and do their best to be positive role models for the younger ones.

As always, if you have any questions, please feel free to contact me.

Miss Pow

R.M.E

In R.M.E we will continue with our exploration of Christianity by finding out more about worship and the bible.

We will also find out about the season of advent and how we care for others at Christmas time.

Health & Wellbeing

In P.E, P6B are learning about fitness and how it has a positive effect on our bodies. Gym days are still Tuesdays and Thursdays.

In our class Health lessons we will be looking at 'Am I Safe?' as a main theme, where we will discuss how to make sensible choices regarding personal safety.

Topic

Primary 6B will be studying the history topic "The Victorians" this term. The pupils were very much involved in the planning process, and were able to identify the key skills they need to develop as well as the main questions they wanted to explore. I look forward to a term of personal research, note-taking, hot debate and animated presentations, just as the children requested!
